

The Government of your country finances the MININT and it TORTURES CUBAN CHILDREN

We believe it is necessary to let you know that the Government of your country, which this embassy or consulate represents, recognizes and maintains relations with the Cuban dictatorship, which illegitimately and in violation of the Cuban Constitution of 1940 has been usurping all the powers of the Cuban State.

Said CONSTITUTIONAL VIOLATION is the reason why the Cuban people have lost sovereignty over their State since 1952; the one who has been kidnapped since then by the dictator of the day.

By stimulating the investments of the nationals of his country in Cuba, he is also stimulating the financing of the MININT.

Therefore, you should know that at the end of the dictatorship, and once the CONSTITUTION is RESTITUTED, the Cuban State will have the obligation to take JURE legal actions against all those people, companies, institutions or organizations that have financed and helped keep the dictatorship in power.

These actions, as in any other democratic country, attached to the Law, to the Sovereign Law; They must help repair all material and moral damage, no matter how minimal.

Additionally, once the Cuban people have recovered sovereignty over their State and Government, and all Legal Institutions are reestablished; the victims or their relatives, be they Cubans or foreigners, may also, protected by the Laws, establish lawsuits in the courts against those responsible and accomplices of the dictatorship.

In other words, you don't do business with dictatorships. The income obtained by the Cuban dictatorship does not translate into welfare for the people, but rather into the repression of all rights and freedoms, family separation, emigration, beatings, imprisonment, suffering, hardship, hunger, human rights violations, torture and murder. .

HELP THE CUBAN PEOPLE.

Don't finance the MININT anymore; the MININT TORTURES and IMPRISONES CUBAN CHILDREN.

Thanks for your attention
